

I am concerned about MB Docket No. 04-233 regarding changes to LPFM station translator priority services.

We listen to K-Love radio through a translator, as do many of our friends.

This station provides a refreshingly unique broadcast of uplifting music which is "safe" for listeners of all ages.

It also serves as a source of inspiration to many.

The use of translators allows us to listen to K-LOVE when we travel, and we cherish that ability.

Please do not let this legislation force the FM translators off the air.

To lose K-LOVE would be a disservice to the hundreds of thousands of listeners who value this special part of their lives.
